

# Содержание

This service can be configured for Individual subscribers by [fdpi\\_ctrl](#)

The format of the instruction:

```
fdpi_ctrl команда --service 2 [список_IP]
```

Instructions' syntax and IP addresses specification methods are described in details here: [Control instructions](#)

For example:

Allow replacement of advertisements for the specified IP list:

```
fdpi_ctrl load --service 2 --cidr 192.168.0.0/24
```

Enable advertisements' blocking service to the subscriber 192.168.1.1:

```
fdpi_ctrl load --service 3 --ip 192.168.1.1
```

Disable advertisements' blocking service to the subscriber 192.168.1.1:

```
fdpi_ctrl del --service 3 --ip 192.168.1.1
```
