2 Equipment prerequisites

You can use equipment or virtual machines within the subsystem with the following characteristics:

1. Central Processor Unit (CPU) - 2.5 GHz, 1 pce
2. Random access memory (RAM) - 2GB min
3. Hard disk drive (HDD) - 50 GB - 250 GB
4. Operating System - CentOS 7.x, CentOS 8.x, CentOS Stream 8.x, Oracle Linux Server 8.x
5. Network interface card (NIC) - 10 Mbps and above

Do not install the subsystem on the same hardware with the DPI! Use a separate virtual machine instead.
