# Problems and solutions

Finished Dependency Resolution

Error: Package: glibc-headers-2.12-1.212.el6.x86\_64 (base)

Requires: kernel-headers >= 2.2.1

You should comment out the exclude=kernel\* parameter in the yum config /etc/yum.conf.

## How to reset admin password?

1. Go to MySql

```
mysql -u root --password=vasexperts dpiui2;
```

2. Run command

```
update users set  
password='\$2y\$10\$cYIXd0YJ2M2H8vPZuUG3Xe6GRJ1gGZ1Mi7MPBWYfYuJnbMHT0n1Dq'  
where username='admin';
```

3. Exit

```
exit;
```

## I installed dpiui2 on the DPI server by mistake. How to uninstall?

To uninstall completely, run the script: [dpiui2-rpm\\_uninstall.sh](#).

```
sudo yum install wget  
sudo wget https://vasexperts.ru/install/dpiui2-rpm_uninstall.sh  
sudo sh dpiui2-rpm_uninstall.sh
```

## Не открывается <https://wiki.vasexperts.ru/> из GUI

1. В адресной строке браузера набрать

```
chrome://flags/
```

2. Параметр #same-site-by-default-cookies - присвоить значение disabled
