6 Prioritization by protocol (DSCP)

Editing

To go to the corresponding section, open the DPI CONTROL menu and click "PROTOCOL PRIORITIZATION (DSCP)".

The section looks like the figure below.

You can view and filter the list of protocols along with its corresponding priorities and add, delete or edit in this section.

Editing is done in tabular form. To edit, just click on the line. When filling out the protocol values and dscp, drop-down lists of hints appear.

The values of drop

DSCP name	Binary value	Decimal value	Priority	Polyping class	class_order
cs0	000 000	0	0	0	7
cs1	001 000	8	1	1	6
cs2	010 000	16	2	2	5
cs3	011 000	24	3	3	4
cs4	100 000	32	4	4	3
cs5	101 000	40	5	5	2
cs6	110 000	48	6	6	1
cs7	111 000	56	7	7	0

Do not forget to click Save after making changes.

Direct editing

It is possible to edit the file directly without using a table form. To switch to the direct editing mode, click the "Editor".
