## 3 GUI Update

To go to the section, click the ADMINISTRATOR menu item, then click the GUI UPDATE menu item.

### Check for the DPIUI2 update

To check for updates, click on the "**Check**" button.

If an update is available, the "**Update**" button will be active and you can update DPIUI2 by clicking this button.

You can also select the "**Automatically install updates**" option for automatic updates by default.

### Check out previous versions of DPIUI2

Use the scroll bar to view the page.

### View the log of the last update

To view the log files, use the scroll bar.

To download the information, click on the "**Download file in full**" button.

To update the file, click on the "**Update**" button.

### View the log of the last update check

To view the log files, use the scroll bar.

To download the information, click on the "**Download file in full**" button.

To update the file, click on the "**Update**" button.
