3 GUI Update

To go to the section, click the ADMINISTRATOR menu item, then click the GUI UPDATE menu item.

Check for the DPIUI2 update

To check for updates, click on the **"Check"** button.

If an update is available, the **"Update"** button will be active and you can update DPIUI2 by clicking this button.

You can also select the **"Automatically install updates"** option for automatic updates by default.

Check out previous versions of DPIUI2

Use the scroll bar to view the page.

View the log of the last update

To view the log files, use the scroll bar.

To download the information, click on the **"Download file in full"** button.

To update the file, click on the **"Update"** button.

View the log of the last update check

To view the log files, use the scroll bar.

To download the information, click on the **"Download file in full"** button.

To update the file, click on the **"Update"** button.
