Raw Fullflow compression

Configuration settings

Перейти: Administrator \rightarrow GUI Configuration \rightarrow QoE Stor: Raw log aggregation settings

There you will find 3 settings:

1. QoE Stor aggregation time interval in hours

- 2. Parallel processing partitions number
- 3. Log level detalization

You also need to move: Administrator \rightarrow Configuration QoE Stor \rightarrow Fullflow log settings

There you can find: "Enable FULLFLOW log background compressing"
