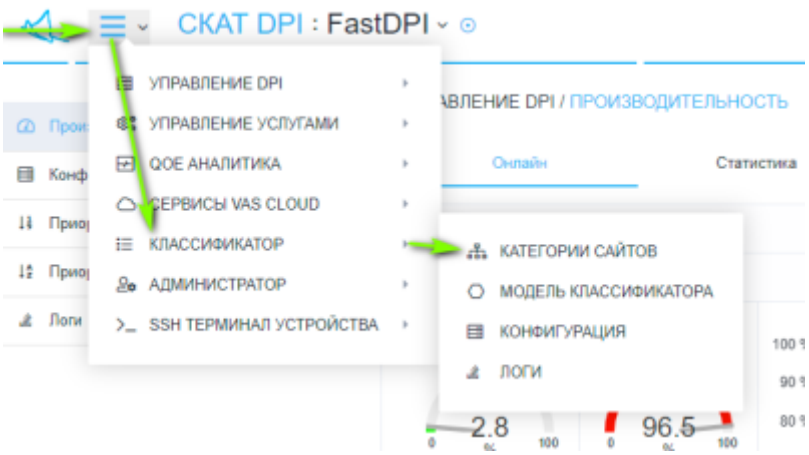
Site categories 3

Site categories

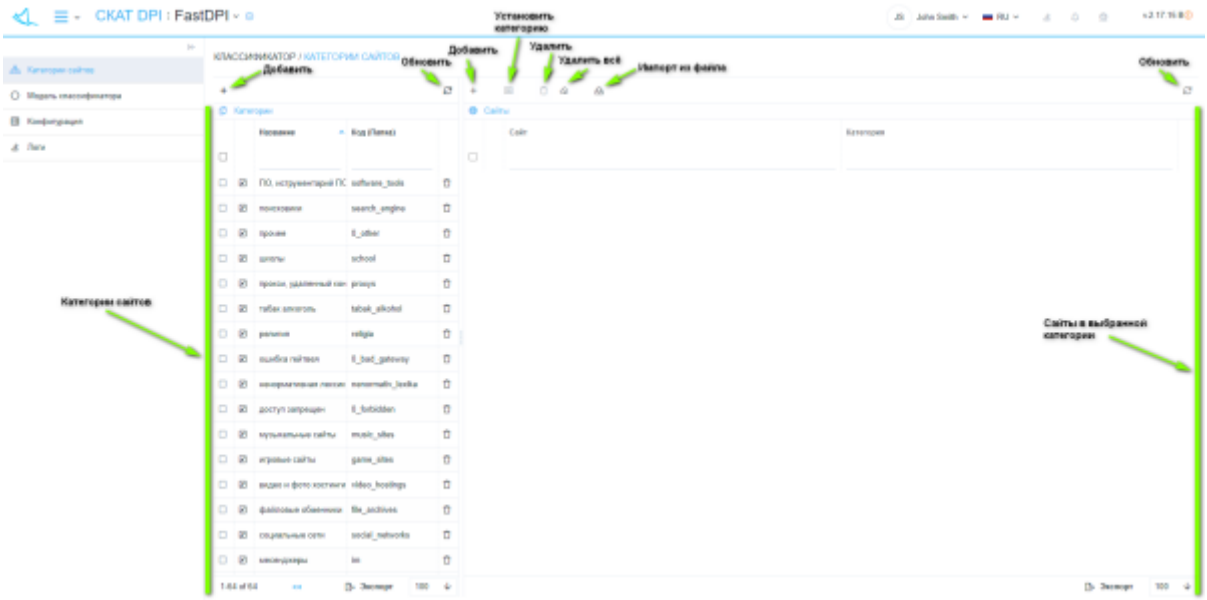
Site categories - this section allows you to create the necessary categories for further sorting sites by them, as well as view the lists of existing sites in the selected categories.

To open the "Site Categories" section, open the main menu, hover over the "Classifier" item and click on the "Site Categories" item. (fig. 1)



(fig. 1)

The section looks like the picture below. (fig. 2)



(fig. 2)

"Site Categories" has sections:

1. Categories (left):
    1. Button "+" - opens a form (fig. 3) for adding a category.
    2. "Refresh" button - refreshes the list of categories.
    3. List of categories.
2. Websites (right):
