# 2 Logs VAS cloud

To go to the Logs VAS cloud section, open the VAS CLOUD SERVICES menu and LOGS VAS CLOUD.

The screenshot shows the VAS Experts application interface. On the left, there is a sidebar with various service categories: SSG control, PCRF control, QoE analytics, VAS cloud services (which is expanded), Personal area, Custom Protocols, and Logs (which is selected). Below these are sections for VAS Ads, Statistics, Accruals and payments, Lawful interception, and Administrator. At the bottom of the sidebar, it says "Version 2.23.6 B". The main area is titled "Logs" and contains a table with columns: Event, Attempts, Status, Status, Data, Create Time, Update Time, Create User, and Update User. The table lists several log entries, such as DeployToHardwareActi, SaveMyCustomPrtclsD, ForceSyncQoEDicsActi, etc., with details like success or error status and timestamps. There are also buttons for search, export, and a refresh icon at the top right of the table.

## Delete a file

To delete log files, select from the list and click on the "**Delete**" button.

This is a close-up view of the "Logs" section from the previous screenshot. A specific row in the table has been selected, indicated by a blue border around the first column. The "Delete" button, which is highlighted with a red box, is located in the last column of the selected row.

Also the selected file by clicking on the "**Delete**" button located to the right of each item in the list.
