# 2 Logs VAS cloud

To go to the Logs VAS cloud section, open the VAS CLOUD SERVICES menu and LOGS VAS CLOUD.

The screenshot shows the VAS Experts application interface. On the left is a sidebar with a search bar and a tree view of services: SSG control, PCRF control, QoE analytics, VAS cloud services (selected), Personal area, Custom Protocols, and Logs (selected). The main area is titled 'Logs' and displays a table of log entries. The columns are: Event, Attempts, Status, Status, Data, Create Time, Update Time, Create User, Update User, and a delete icon. The table contains several log entries, such as 'DeployToHardwareActi' with 9 attempts and status 'Error'. At the bottom, there are pagination controls (1-100 of 3501) and an 'Export' button.

## Delete a file

To delete log files, select from the list and click on the "**Delete**" button.

Also the selected file by clicking on the "**Delete**" button located to the right of each item in the list.

<input checked="" type="checkbox"/>	DeployToHardwareActi	9	Error	Undefined proper	04/02/2022 06:02	06/06/2022 02:32	system	system	
<input type="checkbox"/>	SaveMyCustomPrtclsD	1	Success		06/05/2022 06:12	06/06/2022 06:12	system	system	
<input type="checkbox"/>	ForceSyncQoEDicsActi	1	Success		06/05/2022 06:12	06/06/2022 06:12	system	system	

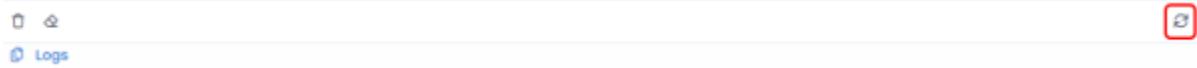

## Clear the list of files

To clear the list of files, click on the "**Clear**" button.

## Update the list

To update the list of files, click on the "**Update**" button.

## Export a list

To export the list of files, click on the "**Export**" button.
