Logs VAS cloud

To go to the Logs VAS cloud section, open the VAS CLOUD SERVICES menu and LOGS VAS CLOUD.

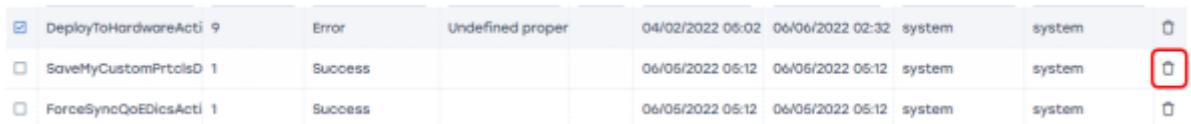

The screenshot shows the VAS Experts application interface. On the left is a sidebar with a search bar and several menu items: SSG control, PCRF control, QoE analytics, VAS cloud services (which is expanded), Personal area, Custom Protocols, and Logs (which is selected). The main area is titled "Logs" and contains a table with columns: Event, Attempts, Status, Status, Data, Create Time, Update Time, Create User, and Update User. The table lists various log entries, such as DeployToHardwareActi, SaveMyCustomPrtclsD, ForceSyncQoEDicsActi, etc., with their respective details like status (Error or Success) and timestamps. At the bottom of the table, there are navigation buttons (1-100 of 3501) and an export option.

Delete a file

To delete log files, select from the list and click on the "**Delete**" button.

Also the selected file by clicking on the "**Delete**" button located to the right of each item in the list.

A screenshot of the logs section showing three rows selected. The "Delete" button for the third row is highlighted with a red box.

<input checked="" type="checkbox"/>	DeployToHardwareActi	9	Error	Undefined proper	04/02/2022 06:02	06/06/2022 02:32	system	system	
<input type="checkbox"/>	SaveMyCustomPrtclsD	1	Success		06/05/2022 06:12	06/06/2022 06:12	system	system	
<input type="checkbox"/>	ForceSyncQoEDicsActi	1	Success		06/05/2022 06:12	06/06/2022 06:12	system	system
