Configuration and setup 3

Configuration and setup

The configuration process consists of several stages:

- [Setting date-time and timezone](#)
- [Setting up disk space](#)
- [Configuring receivers to receive IPFIX streams from FastDPI](#)
- [Filtering settings](#)
- [Configuring IPFIX Export from FastDPI](#)
- [Setting up a ClickHouse database user](#)
- [NAT Flow Configuration](#)
- [Sharding configuration](#)
- [Raw fullflow compression](#)
