You can only use the port 443 and if required to omit the URL as follows:

```
http://192.162.1.1/myfunction?p=1
```

It is enough to specify the required IP address in the white list of URLs or sites, **for example:**

```
imagehut.com/users.php?act=gallery&gal=81&page=4  
3dmx.net  
192.162.1.1
```
