You should disable caching of the redirection page. There are exist two options:

1) on the web server

```
Cache-Control: max-age=0, no-cache, no-store, must-revalidate
```

```
Pragma: no-cache
```

2) add the ? sign to the url of the ntf_server option, it will differ from time to time

```
ntf_server=192.168.0.18/ntf?
```
