Report Settings and Profile Saving 3

Report Settings and Profile Saving

For convenience, you can limit the number of rows and columns displayed in the report table. To adjust these settings, click the gear icon below the table.

In the opened window, create a settings profile:

For a **table** report, you can modify:

1. Column visibility;
2. Row limit;
3. Report name;
4. Display filter;
5. Page orientation.
6. By clicking the Save settings button, you can add the modified settings to the list for quick application in future reports.

The screenshot shows the 'Report settings' dialog box. On the left, there is a sidebar with 'Saved' and 'History' tabs. Under 'Saved', there is a list with 'Report settings' selected. The main area is titled 'Report settings' and contains a 'Report' section with the following settings:

- 1** Columns visibility: Subscriber, RTT, RTT from subscriber, (help icon)
- 2** Rows limit: 20 (help icon)
- 3** Report name: Top subscribers with high RTT (help icon)
- 4** Display filter: Enabled (dropdown arrow, help icon)
- 5** Page orientation: Portrait (dropdown arrow, help icon)

At the top right of the 'Report' section, there is a **6** Save settings button (with refresh and help icons). Below the 'Report' section, there is a 'PDF report settings' section. At the bottom right, there are 'Cancel' and 'Apply' buttons. A pagination bar at the bottom left shows '1' as the current page.

For a **chart** report, you can modify:

1. Items visibility;
2. Chart step;
3. Chart type;
4. Report name;
5. Display filter;
6. Page orientation.
7. By clicking the Save settings button, you can add the modified settings to the list for quick application in future reports.
